License

Unity Asset Store Usage Restrictions (as per [Unity's Asset Store Terms](#))

1. Redistribution and Resale:

- You are **prohibited from reselling or redistributing** assets obtained from the Unity Asset Store.

2. Ownership and Modification:

- **Modifying an asset** does **not grant you ownership** of that asset.
- You may only use the asset **within the limits set by the Asset Store EULA**—modification does not extend those rights.

3. Prohibited Use Cases:

- **NFTs and Blockchain:**
Assets may **not be used for the creation of Non-Fungible Tokens (NFTs)** or in **blockchain-based projects or products**.
- **Metaverse and Game-Creation Software:**
Assets may **not be used to create content** for **metaverse-related platforms** or **game-creation software/products**.
- **Generative AI:**
Assets may **not be included in datasets**, used for training or developing **Generative AI programs**, or used as **inputs for Generative AI systems**.
